

## PRESS INFORMATION

### **Top of the Mountain BIKER SUMMIT to delight the ladies**

**When the Top of the Mountain BIKER SUMMIT brings motorbike fever to the whole of Ischgl from 19 to 22 July, special attention will be paid to biker ladies. It is a long time since motorbiking ladies were seen as a rarity, after all. More and more women are taking their bikes to the roads – and this year's Top of the Mountain BIKER SUMMIT is putting on activities just for females.**

Motorcycling is far too beautiful just to be left to men, after all, which is why girls and their bikes are at the forefront of the Top of the Mountain BIKER SUMMIT. Along with bike tests, wheelie and tilt turn training, trips and concerts, there is a special programme available just for women. This includes trips organised by female bikers – from women for women – which it will be well worth taking part in!

#### **Screwdrivers at the ready!**

There are to be three days of various screwdriver workshops especially for women, in which everything about your own bike will be fully explained - from motorcycle technology to parts, right up to maintenance work. You'll be sure to find a relaxed atmosphere and plenty of know-how. Whether it is brakes, batteries or blinkers – it's no problem at all for female bikers, as it's good to get the screwdriver out! Participation in the workshops is free of charge.

#### **Cutting a perfect figure on the bike**

Anyone who has ever wanted to have a perfect picture of themselves and their bike is in the right place at the Top of the Mountain BIKER SUMMIT. On Friday 20 July 2018, sports photographer Peter Musch will be available to take photoshoots. Both the bike and the (female) biker will therefore be able to cut the perfect figure. Also in the picture for sure will be the fabulous scenery of the Paznaun mountains. The shooting trip is being organised according to the motto of 'from women for women' by Saskia Gross, who herself is an obsessive biker. "Motorcycling is becoming increasingly female. Your love of the sport is something you can show with professional images", says Saskia, a tour guide at Bergbaronin.at. The participation fee of € 90 includes the photographer, a certified tour

guide, a USB stick with all photos and two personal photos in high resolution. Register to [saskia@bergbaronin.at](mailto:saskia@bergbaronin.at).

### **Ischgl invites all to its fourth motorcycling summit**

With motorcycle test rides, guided tours, stunt shows and workshops - from 19 to 22 July 2018, the Top of the Mountain BIKER SUMMIT is taking place for a fourth time in Ischgl. The highest biker meet in Austria is open to all makes of bike and is regarded as one of the highlights of the motorcycling season. On the side programme, along with rides, bike shows, tilt turn and wheelie training are also after-bike parties. There to provide musical entertainment are DJs and live bands. New for 2018: charity stunt shows and e-bike test rides.
