

PRESS RELEASE

Ischgl kicks off winter with a new website design

With immediate effect, the homepages of the Paznaun municipalities of See, Kappl, Galtür and Ischgl are going online, technically optimised and with a new design.

Relaunch before the start of winter: The tourism Association Paznaun-Ischgl has updated the homepages of its four municipalities See, Kappl, Galtür und Ischgl as well as the Ischgl App to conform to the latest technical standards and created an expanded login area. The booking process has also been optimised. In addition, the individual pages of the homepages automatically adapt to the screensizes of the respective end devices thanks to the new Full Responsive Design, and are thus optimally displayed on smart phones, tablets or on the computer desktop. The Ischgl App is also launched in a new design and is available at no cost for iOS and Android as before, following the relaunch.
