

CROSS COUNTRY SKI START

13.11.2021

SNOWFARMING GARANTEES SEASON START

For many, winter is the most beautiful season of all. However, because the snow sometimes not falls before or sometimes well after Christmas, a good 6000 cubic metres of snow storage in the Olympiaregion Seefeld ensures the start of the season.

Success stories from Scandinavia and Davos brought the know-how to Seefeld, and since 2015 the resource-saving snow farming project has guaranteed the first training track of the season. This is also made possible by the special nature of artificial snow, which lasts through the summer in Leutasch under a thick layer of wood chips. Up to 90% of the preserved snow can be spread just in time for the start of the season.

The cross-country ski trail is 2 km long and 8 metres wide and is suitable for both skiing styles. It is illuminated until 8 p.m. and offers ideal training conditions for recreational and professional athletes.

Cross-country skiing is only possible with a valid cross-country skiing ticket and proof of 2G. According to official regulations as of 09.11.2021, 2G (vaccinated or recovered) is valid on the trail. All cross-country skiers must always carry a valid 2G certificate that complies with the legal requirements when using the trails. Random checks are carried out by the staff of the

Olympiaregion Seefeld.

TIME-SLOTS ON THE SNOWFARMING TRACK

To ensure a successful and safe start to the season, there will be free time slots (up to 2 hours) for the snowfarming trail at the weekend, which can be reserved online in advance. We currently expect that these time slots will only be needed at the weekend, and in the event of heavy traffic, possibly also during the week. We therefore ask you to always take a look at the website in good time before the training sessions to see whether time slots need to be booked for that day - the dates will be released accordingly.

Time slots can be reserved here: www.bit.ly/snowfarming21

MEINPLATEAU APP - DIGITAL CROSS-COUNTRY SKI APP

With the meinPlateau app you always have the annual cross-country ski pass directly on your mobile phone. In addition, the daily updated cross-country skiing trail report, the weather forecast for the upcoming days as well as parking spaces along the cross-country skiing trail network are available. The meinPlateau app also provides many personal tips and recommendations directly from our cross-country skiing team.

All info on the meinPlateau app: www.seefeld.com/meinplateau-app

ADVANCE SALE OF ANNUAL TICKETS UNTIL 30 NOVEMBER

The cross-country skiing and roller skiing annual ticket is still available until 30 November 2021 at the advance booking price of € 115 in the online shop, the Seefeld and Leutasch information offices and in the advance booking offices.
