

SPRING CLASSICS KAUNERTAL 2025

WHITE MOUNTAINS – GREEN VALLEYS, THE PERFECT TIME IN THE SNOW

The best time of the year comes when the snow becomes "slushy" and spring meets winter. Or when the day starts with a powder run and ends with "slushy turns". The Spring Classics on the Kaunertal Glacier combine the best of both worlds - warm temperatures and soft snow, green valleys and white mountains.

The Spring Classics are back - and because it's so nice, the transition period is even being extended by a week this year. 5 weeks full of action, legendary park laps, freestyle events and chilled sessions for everyone who wants to celebrate spring in the snow. And at the end there will be the KTE - a corresponding season ending weekend.

Here you can see all the dates at a glance! Save the dates and your rooms!
